works on paper by Joanna Turland

For the first time, the artist presents a solo exhibition composed solely of works on paper, revealing a new facet of her visual language. An intimate and playful approach to drawing brings the energy of her large oil paintings into a smaller format that displays her continually evolving lexicon of symbols and imagery. Painted in gouache and pencil on paper, these works extend the artist's ongoing exploration of the self, the magical and the surreal.

Anna, the violin and the Seahorse
